

LIFE-SAVING CAPABILITIES

Operational readiness for Military and Emergency demands

FLEXIPOD by PODTOWN

Flexipod is a rapidly deployable, fully integrated capability, engineered for the evolving demands of modern warfare. It's interoperability ensures allied nations to operate together—effectively, intuitively, and without delay. From battlefield support to crisis response:

- Standardized transportation by LAND-AIR-SEA
- STANAG approved ballistic coating
- Low IR signature
- Enhanced protection against drones
- Independent energy system
- CBRN/COLPRO compliant HVAC

Optimally designed inside a standard 20' CSC certified ISO container, to ensure standardized transport, deployment and interoperability across allied nations.
